29	D. G. Khan		Reports not received			

REMARKS

LIGHT rain fell in parts of Rohtak district, while the weather remained dry in Lahore and Multan districts. Rain is badly needed. Condition of standing crops (sugarcane, cotton, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of kharif crops continues. Fodder and drinking water are generally sufficient. Supplies of canal water are generally sufficient, except in Ghaggar, Sarsuti and Shahpur canals. Condition of cattle is generally satisfactory. Retail prices (per maund) are as follows :—

	Wheat — Present	Wheat — Corresponding period of last year	Gram — Present	Gram — Corresponding period of last year	Barley — Present	Barley — Corresponding period of last year
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Lahore — — ...	11 8 0	11 3 0	8 14 0	8 14 0	7 8 6	7 8 6
Amritsar .. — ..	(a)	11 0 9	(a)	8 6 9	(a)	..
Rawalpindi	(a)	11 0 9	(a)	9 6 7	(a)	7 1 9
Lyallpur	(a)	9 12 0	(a)	7 10 0	(a)	..
Multan —	11 6 10	10 0 0	(a) 8 0 0	8 0 0	7 0 6	7 0 6

(a) Report not received.

Note—The prices published in this report are subject to verification and when they disagree with the fortnightly retail prices the latter should always be assumed to be correct.

FATEH ULLAH KHAN

SUMMARY OF THE METEOROLOGICAL CONDITIONS OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE IN MARCH 1947

Five western disturbances affected the provinces during the month.

The first western disturbance was an active one. It caused widespread rain in the North-West Frontier Province on the 3rd and 4th and in the Punjab hills on the 4th. It also caused a few falls in the North Punjab on the 3rd and the Punjab hills and the North-West Frontier Province on the 5th.

The second disturbance moving north-eastwards across Baluchistan and Kashmir induced a 'secondary low' over Sind on the 10th. This 'low' moved over to Rajputana on the 11th, intensified there owing to influx of a deep stream of moist air from the Bay of Bengal. In association with this system, there were a few falls in the east and north Punjab on the 12th and 13th, and in the North-West Frontier Province on the 11th.

The third was an active western disturbance which moved off north-eastwards across Punjab Kumaon hills and induced a secondary 'low' over the South United Provinces by the 19th. Associated with it fairly widespread rain occurred in the North-West Frontier Province on the 18th and in the Punjab hills on the 19th. A few showers also occurred in the north Punjab on the 18th and in the North-West Frontier Province, on the 19th.

The fourth Western disturbance moving across Kashmir induced a low over the South-West Punjab on the 22nd. The two together were responsible for widespread rain in the North-West Frontier Province on the 22nd and 23rd and for local rainfall in the Punjab hill on the 23rd and at a few places there on the 24th.

In association with the 5th western disturbance nearly general showers occurred in the Nort-West Frontier Province on the 28th, and 29th and in the Punjab hills on the 30th. It also caused local showers in the east and north Punjab on the 31st

The total rainfall of the month was in large excess at Dharmpur and Bannu, in moderate excess at Simla, in slight excess at Parachinar and Drosh, normal at Dera Ismail Khan, in slight defect at Miranshah and Peshawar and in moderate to large defect elsewhere.

The cloud amounts were normal or in defect.

Humidity was normal or in excess except at Khushab and Drosh where it was in defect.

Both the maximum and minimum temperatures were normal or in excess.

March 1947

LAHORE, FRIDAY, SEPTEMBER 19, 1947

GENERAL

Proceedings of the Punjab Government, No. 3737-Agr., dated the 2nd June 1947

Read—

THE report of the Department of Agriculture, Punjab, for the year ending the 30th June 1946.

1. The report of the Department of Agriculture for the year ending the 30th June 1946, is a document of considerable interest and importance to those who are interested either in farming, the welfare of the tillers of the soil, or the economic development and prosperity of the Province. It is a matter for regret that on account of the exigencies of war and consequent shortage of paper the printing of reports of such vital importance had to be suspended for the duration of war. Though the war ended in 1945, the actual shortage of paper still continues. It has, therefore, been decided to print a brief review of the activities of the Department without printing the actual report.

On account of the Grow-More-Food Schemes which had to be undertaken during the war, the Agricultural Department was greatly expanded. Some idea of this expansion can be gained by a comparison of the expanditure for the year ending 30th June 1938—the first year of Provincial Autonomy—with that of the year under report. The expenditure which in 1938 amounted to a little over rupees 20 lakhs has now gone up to the substantial sum of over Rs. 96 lakhs during the year under report.

2. *Agricultural College, Lyallpur*—The Lyallpur College has now been in existence for over 38 years. It was founded with the main object of providing facilities for the education of those who desired to specialize in the methods of scientific agriculture, for the training of staff for the requirements of the Department and last but not the least for providing facilities for research workers. A modest beginning was made in 1909 with a three year Diploma Course and only 16 students on the roll. The College now has as many as 738 students in all and numerous courses varying in length from 4 years to a fortnight and embracing such diverse subjects as preservation of fruits, bee-keeping dairying, training of malis in growing vegetables and fruits and of village blacksmiths in the repairs of agricultural implements. By gradually developing courses to suit the requirements of all classes who are interested in agriculture, the college has attained a position of great pre-eminence. The popularity of the college is evidenced by the fact that the number of applications for admission into the college far exceeds the accommodations available. Out of 460 applications only 60 students were admitted during the year under report. Considerable difficulty has for some time past been experienced in the matter of accommodation to house the increasing number of research workers. It was, therefore, decided to provide a suitable research institute at an estimated cost of Rs. 2 lakhs. The construction of this institute will incidentally release the college laboratories for educational purposes and with suitable additions and alterations in lecture rooms, etc. The college will be in a position to admit more students who are being denied admission at present for want of accommodation.

An interesting feature of the college is its dairy which was started in 1914-15 when the daily milk yield was 5·6 lbs. per cow. With the application of correct dairying methods it has been possible to increase the yield of milk per cow to 16·04 lbs. per day. The College Dairy now maintains a fine herd of buffaloes and Montgomery cows numbering in all 88 head of cattle.

3. *Crop research work*—The importance of research was never felt more keenly than it is now. Rapid increase in population and acute shortage of foodgrains all over the world make it vitally necessary to increase production. In this field the Department of Agriculture has gained a distinct reputation and the Punjab has reason to be proud of the past achievements of the Department in the matter of research which continued unabated during the year under report. High yielding varieties of cotton, wheat, rice sugarcane, etc., etc., have been made available to the cultivator. Despite the wonderful work already done there is still an unlimited field for research still awaiting attention.

In a short review like the present, it is not possible to mention in any detail all the work that is going on, but it will suffice if a few salient points of the research work done on the improvement of some of the main crops are given.

4. *Cottons*—A new American variety 124-F, known as the "Victory" cotton was released to cultivators early in January, 1945, and it has already almost ousted the established varieties such as 289-F/K-25 and 289-F/43. Another strain of "Victory" cotton 199-F, which is even superior to 124-F, is likely to be brought on the approved list shortly. The breeding of extra long staple American cottons, which are at present imported from abroad, is receiving attention and it is hoped that the results of a far reaching character will be obtained shortly and made available to the cultivator to his unmistakable benefit. Research on the new strains of 4-F for better lint qualities and of L. S. S. for early maturity is progressing satisfactorily. No pains are being spared in evolving jassid resistant varieties. Crossing is being continued between the Punjab American cottons and the Madras strains, e. g., 920 Cambodia, C. O. 3 and C. O. 4 which are well known for their high jassid resistance. These crossings have yielded, progenies which exhibit complete immunity to the pest and combine good yield, good quality of lint and high ginning outturn. While considerable attention is being given to research on American cottons, desi cottons have not been ignored. The first cross between the indigenous Mollisoni and the Chinese Million Dollar has resulted in the evolution of the well known Jubilee types, which possess a lint length approaching 4-F Punjab American cotton.

5. *Wheats*—Researches on new strains of wheat for both irrigated and barani areas are in progress. Of these crosses C 253, a beardless wheat, has given better yield than C·591 on irrigated lands in the Kangra valley. C·250 has maintained its superiority over all other Punjab wheats in the submontane districts. C·217 though primarily meant for the barani areas of the north Punjab has given excellent results in irrigated areas of the Province. Researches conducted during the year under review go to show that this variety has become a serious rival to C·591 even in the irrigated tracts.

6. *Gram*—The gram crop generally suffers from two serious fungal diseases, viz. gram wilt and gram blight. Gram blight is common in North Punjab for which type F.8 has been recommended in areas afflicted by this disease. Type F.7 has been recommended for areas where gram wilt prevails Both these varieties are still considered unsuitable and research is being. conducted to discover better varieties which will resist these diseases better. One cross namely 12/34 has been discovered which is not only a heavier yielder but is found to be more resistant to gram blight than F.8. C.334 is another promising variety against gram blight disease.

Only a passing reference can be made to other crops on many of which, however, very important work is being done. Researches in sugarcane, rice, oilseeds, potatoes, tobacco are giving promising results. The cultivation of ground nuts is becoming very popular in the province. This crop now covers an area of 62,000 acres. Of the various medicinal plants, cultivation of liquorice is gaining popularity. Fruit preservation and cold storage of fresh fruits are receiving the constant attention of the Department. These researches are of considerable value and have in no small measure added to the wealth of the province.

7. *Grow-More-Food Campaign*—The Grow-More-Food Campaign which has been under way for some years past has now assumed considerable importance. With a view to produce more foodgrains the following schemes which are jointly financed by the Central and Provincial Governments were undertaken by the Agricultural Department during the year under report—

(1) The well sinking scheme ;

(2) The green manuring scheme ;

(3) The Compost scheme, both rural and urban ; and

(4) The scheme for the supply of iron and steel for the manufacture of small and heavy agricultural implements.

With the object of growing more food, a scheme for sinking 5,000 percolation wells was taken in hand. Apart from supplying burnt bricks, cement, iron, etc., at control rates, Government granted a subsidy of 20 per cent of the cost of a well subject to maximum of Rs. 300 to those persons who do not pay more than Rs. 100 as land revenue per annum and who agree to sink a well on their land.

Despite the difficulty experienced in the supply of coal for burnin bricks, the Department was able to complete as many as 1,600 wells durin the year under report.

For the purpose of bringing more areas under green manure crops the Government of India made a grant of Rs. one lakh. The seed of the green manure crop was given free of charge to the cultivator on the condition that the crop would be sown under the advice of the Agricultural Department and plough in subsequently without grazing, cutting or use as fodder. 17,300 maunds of the seed of different green manure crops was supplied to cultivators during the year under report.

To encourage the manufacture of compost and its use, 7 centres each comprising 5 villages in each district were selected. Municipal Committees were persuaded to convert their raw refuse into compost. 33 towns were able to turn out over 13 lakhs of cubic feet of manure up to the end of June 1946.

The scheme for the supply of iron has been a source of considerable anxiety as the supplies of iron were not easily obtainable. Nevertheless, it was found possible to distribute 3,500 tons of iron. Among other things over 428,000 desi plough shares 308,000 sickles, 629,000 spades, 11,750 persian wheels, 1,339,500 buckets and 4,000 sugarcane crushers were manufactured.

8. *Distribution*—The Department of Agriculture has 12 experimental farms where research is being conducted. In addition the Department also maintains 9 seed farms for the purpose of producing for supply to the cultivators the seed of the varieties which have proved their superiority on the experimental farms. The seed produced at the seed farms is in such a keen demand all over the Province that the supply has to be supplemented from large private farms where purity can be guaranteed. One of the most important functions performed by the Department is the distribution and sale of improved varieties of seed. During the year under report nearly 3½ lakhs maunds of seed were distributed. The details are given below :—

	Maunds
Wheat	187,981
Cotton	101,564
Potato tubers	12,647
Gram	12,187
Rice	7,630
Other seeds	26,476

The major portion of the wheat supplied was of C.591 variety which occupied an area of nearly 65 lakh acres. 8-A seed which has now been ousted by C.591 is still grown on an area covering over 11 lakh acres. No desi cotton seed was distributed during the year as it is the policy of Government to discourage this variety in the colony districts. American cotton now covers an area of over 17 lakh acres in the Province. It is, however, disappointing that the distribution of seed resulted in a net loss of Rs. 2,42,367 to the department. In the opinion of Government seed transactions should involve neither profit nor loss.

9. *Fisheries*—The Fisheries section of the Agricultural Department which has been organised during the year works under the Warden of Fisheries. Thirty fish farms and 73 fry farms have been established in the fish consuming districts and 46 tanks were stocked with carp fry during the year. The two Government trout farms at Mahili and Patli near Katrain in the Kulu Valley continued to function. Eyed ova were planted in different rivers and streams in the Kulu Valley and some were allowed to hatch at the farms. It has been discovered that the trout fry develops better in natural ponds than in cemented tanks. For this purpose, therefore, 12 natural ponds have been arranged for rearing the trout fry. The total number of fishing licenses issued during the year was 11,620 as against 10,724 last year. The total income from fishing licenses and other sources amounted to Rs. 1,96,234 as compared with Rs. 1,81,394 last year.

The Punjab Government feel that on account of lack of properly trained workers, inadequate staff and lack of basic scientific data, little has been accomplished in the field of development of the fishing industry the potentialities of which are probably not fully realised. They hope, however, that the development of Fisheries, which is one of the most promising means of improving the diet of the people, will receive the most careful attention of the Department in future. An increase in the supply of fish during the next few years is most important, particularly in view of the present difficult food situation.

10. Government note with pleasure that the Agriculture Department continued to receive assistance from other Departments and district officers. The financial assistance received from the Indian Council of Agricultural Research and Indian Central Cotton Committee is appreciated and gratefully acknowledged. Government take this opportunity of placing on record their sense of appreciation of the good work done sometimes in difficult conditions by the Director of Agriculture and his staff without whose loyalty and co-operation it would not have been possible to make such excellent progress during the year under report.

By order of the Punjab Government

C. N. CHANDRA

LAHORE, FRIDAY, OCTOBER 10, 1947

GENERAL

Proceedings of the West Punjab Government in the Medical Department, No. 5071-M-47/2851, dated 24th September 1947.

READ

The report of the Inspector-General of Civil Hospitals, Punjab, on the working of the Punjab Mental Hospital, Lahore, during the year 1946.

Remarks—During the year under report 1,603 patients underwent treatment as against 1,538 during the preceding year. The daily average number of patients was 1,239·88 as against 1,231·78 in 1945.

2. The total cost during the year under report amounted to Rs. 8,33,828 as against Rs. 6,46,246 during the previous year. The cost per patient rose from Rs. 524-10-0 to Rs. 672-8-0, the increase being due mainly to a general rise in the prices of rationed articles and an upward revision of the scales of pay of the hospital staff. On the other hand, the

		ns.	(b) Do. 3. Satisfactory.		Sowing of maize and bajra continues.

	Montgomery				

income (receipts from local bodies, paying patients, garden produce and manufactured articles) declined from Rs. 3,54,000 (in 1945) to Rs. 3,40,295. The net cost of the institution during 1946 was, therefore, Rs. 4,93,533 while it had been Rs. 2,43,000 in 1945.

3. There were 90 deaths during the year 1946 as against 87 in the year 1945. One satisfactory feature is that there was neither any unnatural death, whether by violence or suicide, nor any escape. Another such feature is the remarkable improvement in the percentage of patients discharged as cured to new admissions, being 28·33 in 1946 as against 17·51 in 1945. This improvement is attributed to the introduction of modern methods of treatment.

Orders—Ordered that a copy of the report and the review be forwarded to the Government of Pakistan, Health Department, for information, also that the review be published in the *West Punjab Gazette.*

Ordered that a copy of the review be forwarded to the Inspector-General, Civil Hospitals, West Punjab.

By order of the Governor of the West Punjab

S. M. HASSAN,

Secretary to Government, West Punjab
Medical and Local Government, Departments.

Remarks

RAINFALL varying in amount from 0·04" to 4·03" was received in parts of the reporting districts. It proved beneficial to the [s]tanding crops. Condition of standing crops (sugarcane, cotton, fodder, etc.) is generally average to good on irrigated and below [a]verage to average on unirrigated areas. Sowings continue in parts of Muzaffargarh district. Fodder is sufficient except in Jhelum. [D]rinking water is sufficient. Condition of cattle is generally satisfactory.

[D]irector of Land Records, West Punjab

SUMMARY OF THE METEOROLOGICAL CONDITIONS OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE IN PARIL 1947

The four western disturbances which affected the provinces during the month were feeble and caused only isolated showers on 2 days in the North-West Frontier Province and on 3 days in the Punjab hills.

The total rainfall of the month was in large defect.

The cloud amounts were in defect.

The humidity was in excess at Hissar, Simla and Khanpur, normal at Lahore and Ludhiana and in defect elsewhere.

Both the maximum and minimum temperatures were in excess except the minimum temperatures alone which were normal at Hissar, Montgomery and Bahawalpur.

April 1947

No. Cont/5/7/21086

FROM

THE STORES PURCHASE OFFICER,
PUNJAB, LAHORE,

To

ALL HEADS OF DEPARTMENTS (EXCEPT ACCOUNTANT-GENERAL PUNJAB), SUPERINTENDING AND EXECUTIVE ENGINEERS IN THE PUNJAB.

Dated Lahore, the 1st August 1947

Subject—RATE CONTRACT FOR THE SUPPLY OF ROAD TAR NO. 3 AND 3-A AND HAVIS GRADE DURING THE YEAR 1946-47.

SIR,

IN continuation of this office endorsement No. Cont/5/7/19571, dated the 6th July 1947, on the subject noted above, I have the honour to say that the terms of supply of Road Tars to all indenting officers subsequent to 1st January 1947, are identical with those accepted by the Director-General of Industries, and Supplies, New Delhi. Accordingly no deduction on account of leakage for supplies made subsequent to the 1st January, 1947 will be entertained by the contractors. Payment should be made in accordance with the weight recorded on the Railway Receipts and not on the basis of weights received or said to have been received at destination.

I have, etc.

(a) Report not received.

FATEH ULLAH KHAN

Director of Land Records, West Punjab

Statement of Cotton Pressed in the West Punjab for the week ending 12th September 1947, and for the corresponding period last year.

The above statements are blank.

V. N. S. OTTO

P.A.

for Director of Agriculture, West Punjab

Notes on the condition and prospects of crops, etc., in each district of the West Punjab for the month of July 1947

1. **Lahore district**—A few showers of rain fell in Kasur tahsil. Condition of standing crops average on irrigated and poor on unirrigated areas. Condition of cattle is generally satisfactory. Public ealth is generally good. Canals remained flowing.

2. **Sialkot district**—Rain fell from 3·51 to 8·24 inches at various places in the district. It proved eneficial to the standing crops. Condition of standing crops is average. Sowing of fodder crops continue the district. Condition of cattle is satisfactory, except few cases of haemorrhagic-septicaemia in certain illages of the district. The public health is generally satisfactory, but there is a complaint of smallpox in ertain villages of the district. Upper Chenab Canal with its branches is running.

3. **Gujranwala district**—Light rain fell during the month. It proved beneficial to the standing ops. Condition of standing crops is average on irrigated and below average on unirrigated areas. Condition cattle is satisfactory. Public health is satisfactory, except that smallpox remained prevalent. Canals re flowing.

4. **Sheikhupura district**—Nil.

5. **Gujrat district**—The rainfall during the month was below average. Condition of standing ops is fair. Fodder is inadequate except in Phalia tahsil. Condition of cattle is satisfactory. Canals e running.

6. **Shahpur district**—Rain fell during the month varied from 0·10 to 1·31 inches. It proved beneficial the standing crops. Condition of standing crops is average on irrigated and below average on unirrigated eas. Condition of cattle is satisfactory. Condition of public health is satisfactory, except complaints of nallpox in the district. Lower Jhelum Canal remained closed for four days during the month. Foodstuffs, dder and drinking water are sufficient.

7. **Jhelum district**—Rain fell from 2·00 to 4·15 inches in the district. Condition of standing crops good on irrigated and average on unirrigated areas. Land is being ploughed for Rabi 1947. Condition cattle is satisfactory. Public health is generally good. Prices are stationary.

8. **Rawalpindi district**—Rainfall during the month was below average. Condition of crops is average. ondition of cattle is satisfactory. Public health is generally fair except cases of smallpox in some villages. rices are stationary.

9. **Attock district**—Rainfall during the month proved very useful for sowing of kharif crops. Conition of standing crops is good on irrigated and average on unirrigated areas. Public health and condition cattle are generally good.

10. **Mianwali district**—Rainfall during the month proved very useful for the standing crops. ondition of standing crops is average on irrigated and below average on unirrigated areas. Condition of cattle satisfactory, and public health is generally good. More rain is badly needed.

11. **Montgomery district**—Slight showers of rain fell during the month. Condition of standing crops normal. Three hundred and thirty-nine cases and 38 deaths from smallpox were reported during the month nd 9,814 vaccinations were performed. Condition of public health and cattle is satisfactory. Lower Bari oab Canal was closed for four days, and now the canals are running.

12. **Lyallpur district**—Rainfall during the month proved beneficial to the standing crops. Condition f standing crops is normal. Condition of cattle is generally good except that some cases of rinder-pest are eported in a few villages of the district. Public health is good. Canals have been running.

13. **Jhang district**—Rainfall during the month proved very useful for the standing crops. Condition standing crops is generally average. Cow-pox is reported in the district. Public health is good. Canals re running as usual.

14. **Multan district**—Rain proved useful for the standing crops. Sowing of Cotton, Chari, Maize, ung, Mash, Bajra and vegetables continued. There was complaint of smallpox among cattle in some arts of the district. Public health is satisfactory. All the canals are running regularly.

15. **Muzaffargarh district**—Rainfall during the month benefited the standing crops. Condition of tanding crops is average. Condition of cattle is fair except some cases of smallpox in the district. ublic health is generally satisfactory, except some cases of smallpox. Canals are running with sufficient upply of water. Prices are stationary.

16. **Dera Ghazi Khan district**—It rained from 0·2 to 0·85 inches which proved beneficial to the tanding crops. Condition and expected yield of crops is below average. There was a complaint of rinderest in the district. Public health is fair except some cases of smallpox in the district. All canals re flowing as usual. Prices remained high.

MOHD. RAFI

SUPERINTENDENT

for Director of Land Records, West Punjab

16	D. G. Khan	Nil ..	1. Sufficient except in Pachahd circle of Jampur tahsil. 2. (a) Sufficient except in Pachahd circle of Dera Ghazi Khan tahsil. (b) All the canals are flowing. 3. Good.	Wheat .. 10 7 10 Gram .. 8 1 7	Condition and expected yield of crops is below average.	

REMARKS

RAINFALL varying from 0·07" to 4·58" was received in parts of the reporting districts except Lahore, Muzaffargarh and Dera Ghazi Khan. It proved beneficial to the standing crops. Condition of standing crops (sugarcane, cotton, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowings continue in a few districts. Fodder is sufficient except in parts of Gujrat, Shahpur, Rawalpindi and Dera Ghazi Khan districts. Drinking water is sufficient except in parts of Dera Ghazi Khan district. Condition of cattle is generally good. Retail prices (per maund) are as follows :—

	Wheat Present	Wheat Corresponding period of last year	Gram Present	Gram Corresponding period of last year	Barley Present	Barley Corresponding period of last year
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Lahore	11 6 10	11 4 0	8 14 3	8 14 0	7 8 6	7 8 6
Rawalpindi	12 1 2	11 3 6	9 6 7	9 6 0	7 9 11	7 1 9
Lyallpur	9 8 0	(a)	8 4 0	(a)	..	(a)
Multan	11 6 10	(a)	8 0 0	(a)	7 0 6	(a)

(a) Report not received.

REMARKS

RAINFALL varying from 0·06" to 4·52" was received in parts of the reporting districts except Multan, Muzaffargarh and Dera Ghazi Khan districts. It proved beneficial to the standing crops. Condition of standing crops (sugarcane, cotton, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowings continue in a few districts. Fodder is sufficient except in parts of Shahpur, Rawalpindi and Dera Ghazi Khan districts. Drinking water is sufficient. Condition of cattle is generally good. Retail prices (per maund) are as follows :—

	Wheat Present	Wheat Corresponding period of last year	Gram Present	Gram Corresponding period of last year	Barley Present	Barley Corresponding period of last year

OFFICE OF DIRECTOR OF LAND RECORDS,
PUNJAB
Lahore, dated 22nd September 1947

Quotations have not been shown in cases in which there have been no wholesale transactions.
NOTE—Prices of rice as shown in the statement are for the quality in common demand.
Variations in prices are due to fluctuations in imports and exports.
NOTE—The grade of salt for which quotations are given in this statement is Rock or Sendha, except Palwal, where it is Sambhar.

§ Prices not reported.

GHULAM MOHAMMAD
HEAD ASSISTANT OF STATISTICS,
Office of Director of Land Records, West Punjab.

V. N. S. OTTO

P.A.

for Director of Agriculture, West Punjab

Notes on the condition and prospects of crops, etc., in each district of the West Punjab for the month of August 1947

1. **Lahore district**—There was sufficient rainfall in Lahore which benefited the standing crops. ndition of standing crops is average on both the irrigated and unirrigated lands. Public health and ndition of cattle are generally good.

2. **Sialkot district**—The rainfall during the month was from 5·56 inches to 16·27 inches. It oved beneficial to the standing crops. The condition of standing crops is good on irrigated and erage on unirrigated areas. The condition of cattle is generally satisfactory, but there is a complaint hæmorrhagic-septicæmia in certain villages of the district. Public health is generally satisfactory. pper Chenab Canal with its branches is running.

3. **Gujranwala district**—The rainfall in the district proved beneficial to the standing crops. Con- ion of standing crops is generally average to good on both irrigated and unirrigated lands. Public health d condition of cattle are generally good. Canals are flowing.

4. **Sheikhupura district**—Rainfall during the month proved useful for the standing crops. Con- ion of standing crops is reported to be satisfactory. Condition of public health and cattle is satisfactory. nals remained flowing during the month.

5. **Gujrat district**—The rainfall during the month has been adequate and it has benefited the nding crops. The condition of standing crops both on the irrigated and the unirrigased areas is average. nals remained flowing throughout the month. No cattle disease has been reported during the month.

6. **Shahpur district**—The rainfall during the month was from 0·16 inches to 1·53 inches and it oved very useful for the standing crops. The condition of standing crops has been reported from averag good on the irrigated areas and from below average to average on the unirrigated areas. Cattle have en reported to be generally in good condition. Public health remained satisfactory. Lower Jhelum Canal mained closed for a week during the month

7. **Jhelum district**—Rainfall was sufficient during the month and it proved useful for the standing ops. The condition of standing crops is good on irrigated and below average on unirrigated areas. e land is being ploughed for Rabi sowings. The condition of cattle is generally fair. The state of blic health is fair. Prices are generally stationary.

8. **Rawalpindi district**—The rainfall during the month was below average except Gujar Khan where was above average. The condition of crop is average. The yield is expected to be normal. The con- tion of cattle is fair throughout the district. The public health is generally fair on the whole except village Sanghar in the Rawalpindi tehsil where cholera has broken out. Prices are stationary.

9. **Attock district**—The rainfall during the month proved beneficial to the standing crops. The ondition of crops is expected as average to good and average on irrigated and unirrigated areas, respectively. blic health and condition of cattle are generally good.

10. **Mianwali district**—Rainfall during the month proved very useful to the standing crops. he condition of standing crops is average on irrigated and below average on unirrigated areas. The con- tion of cattle is average. Public health is fair on the whole. More rain is needed.

11. **Montgomery district**—Rainfall during the month proved beneficial to the standing crops. ndition of standing crops is normal. Condition of cattle is satisfactory. 110 cases and 28 deaths due small-pox have been reported.

12. **Lyallpur district**—Rainfall during the month proved beneficial to the standing crops. Condition f standing crops is normal. Condition of cattle is generally good. Public health is generally good. Canals ave been running.

13. **Jhang district**—Rainfall during the month proved beneficial to the standing crops. Condition f standing crops is average. There is no complaint of cattle disease. River Chenab is overflooded. The anals are working as usual.

14. **Multan district**—There was sufficient rainfall throughout the district which proved useful for e standing crops. Harvesting of vegetables and fodder crops continued. There was complaint of ot and mouth and rinderpest diseases among the cattle in parts of the district. The general state of blic health is satisfactory. All the canals are flowing.

15. **Muzaffargarh district**—Report not received.

16. **Dera Ghazi Khan district**—It rained from ·05 inch to ·75 inch which proved beneficial to e standing crops. Condition and expected yield of crops is average in Dera Ghazi Khan, Jampur and ajanpur tahsils and below average in Sanghar tahsil. Condition of public health is average. All canals e flowing. Prices remained high.

SUPPLEMENT I

REGISTERED No. L 864

The West Punjab Gazette

PUBLISHED BY AUTHORITY

No. 12 LAHORE, FRIDAY, NOV. 7, 1947

Weather and Crop Report for the week ending 8 a.m., Monday, the 27th October 1947

This report deals with Lahore, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur Multan and Dera Ghazi Khan districts only.

No abnormal conditions are reported from other districts.

No.	Reporting Station	Rain	1. Supply of fodder 2. Water supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
				Rs. A. P.		
1	Lahore ..	Nil ..	1. Sufficient except in flooded areas. 2. (a) Sufficient (b) The canals except Upper Bari Doab remained flowing by rotation. 3. Below average due to lack of fodder in the flooded area.	Wheat .. 11 13 8 Gram .. 8 14 3 Barley .. 7 8 6	Condition of standing crops is good on irrigated and average on unirrigated areas.	..
2	Sialkot ..	Nil ..	1. Ample .. 2. (a) Sufficient. (b) The Upper Chenab Canal with its branches is flowing. 3. Satisfactory.	Wheat .. 10 4 0 Gram .. 8 8 0 Maize .. 7 4 0 Cotton .. 20 0 0 Gur .. 25 0 0	Condition of standing crops is good. Harvesting of rice, bajra, cotton and sugarcane continues. Probable yield is good except Bajra which was adversely affected by heavy rains.	..
3	Shahpur ..	Nil ..	1. Sufficient except in Shahpur and Khushab tahsils. 2. (a) Sufficient. (b) Lower Jhelum Canal remained flowing. 3. Generally good.	Wheat .. 8 14 3 Barley .. 6 10 8 Gram .. 7 4 4 Bajra .. 7 4 4 Maize .. 7 4 4 Cotton Desi. 17 12 7 Cotton American. 20 0 0	Condition of standing crops is average to good on irrigated and below average to average on unirrigated areas.	..
4	Rawalpindi	0·15 at Sadr .. 0·35 at Gujar Khan. 0·10 at Kahuta. 1·50 at Murree.	1. Sufficient in Rawalpindi tahsil but insufficient elsewhere. 2. (a) Sufficient. 3. Fair.	Wheat .. 12 1 2 Barley .. 7 9 11 Gram .. 9 6 7 Bajra .. 8 0 0 Maize .. 8 14 3 Jowar .. 7 9 11	Condition of standing crops is average.	
5	Mianwali ..	Nil ..	1. There is an acute shortage of fodder in the district especially in Thal tract. 2. (a) Sufficient except in Thal tract. (b) Canals are flowing according to programme. 3. Poor due to shortage of fodder.	Wheat .. 12 4 11 Gram .. 7 9 11 Barley .. 6 10 8 Jowar .. 6 15 4 Bajra .. 7 9 11	Condition of standing crops is average on irrigated and poor on unirrigated areas.	..
6	Lyallpur ..	Nil ..	1. Sufficient .. 2. (a) Do. (b) Canals have been working satisfactorily. 3. Good.	Wheat .. 9 8 0 Gram .. 8 4 0	Condition of standing crops is generally normal. Harvesting of sugarcane and cotton desi continues. Expected yield is average.	Sowing of wheat continues.
7	Multan ..	Nil ..	1. Sufficient .. 2. (a) Do. (b) All the canals are flowing regularly. 3. Generally satisfactory.	Wheat .. 11 6 10 Barley .. 7 0 6 Jowar .. 7 0 6 Bajra .. 7 8 6 Maize .. 7 14 5 Gram .. 8 10 6	Condition of standing crops is normal. Harvesting of vegetables continue.	Sowing of rabi crops continues.

No.	Reporting Station	Rain	1. Supply of fodder 2. Water Supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
8	D. G. Khan	0·08 at Rajanpur .. 0·04 at Jampur No rain fell at other stations.	1. Average .. 2. (a) Sufficient except in Pachahd circle of Sanghar tahsil. (b) All the canals remained closed. 3. Fair.	Rs. A. P. Wheat .. 10 7 10 Gram .. 8 1 7	Condition and expected yield of standing crops is average.	

REMARKS

Rainfall varying from 0·4″ to 1·50″ was received in parts of Rawalpindi and Dera Ghazi Khan districts only. Condition of standing crops (sugarcane, cotton, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops and harvesting of kharif crops are in progress. Fodder is sufficient except in Mianwali and parts of Lahore, Shahpur and Rawalpindi districts. Drinking water is sufficient except in parts of Mianwali and Dera Ghazi Khan districts. Condition of cattle is generally satisfactory. Retail prices (per maund) are as follows :—

	Wheat Present	Wheat Corresponding period of last year	Gram Present	Gram Corresponding period of last year	Barley Present	Barley Corresponding period of last year
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Lahore	11 13 8	11 4 0	8 14 3	8 14 0	7 8 6	7 8 [illegible]
Rawalpindi	12 1 2	11 3 6	9 6 7	9 6 7	7 9 11	7 1 9
Lyallpur	9 8 0	9 14 0	8 4 0	8 4 0	..	..
Multan	11 6 10	11 11 10	8 10 6	8 10 6	7 0 6	7 0 6

NOTE—The prices published in this report are subject to verification and when they disagree with the fortnightly retail prices the latter should always be assumed to be correct.

MOHAMMAD SULEMAN

for Director of Land Records, West Punjab

FORM E—WEST PUNJAB

The West Punjab Gazette

PUBLISHED BY AUTHORITY

LAHORE, FRIDAY, NOVEMBER 7, 1947

GENERAL

PROCEEDINGS OF THE PUNJAB GOVERNMENT No. 25314-G, dated 13th August 1947

Read—The report of the Director of Public Instruction Punjab, for the year ending 31st March, 1946.

1. The introductory chapter of the report gives the resume of the salient activities of the Education Department in the year 1945-46. A perusal of the list of achievements leaves no doubt that the year under review has been a year of all round progress. Facilities for the expansion of education for both men and women have been extended further. Many new educational institutions, colleges, secondary schools, vernacular middle schools and primary schools have been opened; thus a creditable attempt has been made to meet, as far as possible, the growing public demand for more and more education. Besides, financial help in the form of special grants has been freely given to various institutions including the Islamia College, Jullundur, the Punjab Public Library, Lahore, and several unaided schools belonging to backward communities or situated in backward areas. Special officers were appointed for the execution of the Post-War plans. The various posts in the various grades of the Subordinate Educational Service (Men's Branch) have been refixed on a percentage basis to remove block of promotions from grade to grade. These measures, it is hoped, will contribute materially to the progress of education in the province.

2. The total number of educational institutions for boys and girls, recognized or unrecognized, has gone up by 235—the increase in the number of recognized schools being 244 and the decrease in that of unrecognized schools 9. The number of unrecognized schools has been falling for the last six years. The decrease in their number was 662 last year. The unrecognized schools will, however, continue to exist; for, as the Director points out, the public demand for education is far in excess of the facilities provided out of public funds. The Government see no harm in the existence of some good unrecognized schools along with recognized schools, so long as they exist for the sole object of service and can maintain some standard of efficiency. The enrolment in institutions of all types and grades has gone up to 1,645,232—an increase of 109,714 on the numbers of last year. The total cost of education has also advanced by Rs. 88,52,118 to Rs. 5,69,89,555. Some of the extra expenditure is due to additional grants on dearness allowance to local body teachers. These figures give cause for general satisfaction.

3. The number of primary schools for boys has increased by 101 to 6,331 and the total enrolment of boys at the primary stage—in primary schools and in the primary classes of secondary schools—by 40,014 to 817,821. There has also been an increase in girls' schools and in the total enrolment therein. The average attendance figures, the literacy figures and the comparison tables given in Chapter 'C' clearly point towards the growing popularity and increased efficiency of our primary schools. Every effort which

furthers the cause of primary education is a step in the right direction and deserves all encouragement and praise. It is gratifying to note that the scales of pay for Vernacular teachers in the employ of the local bodies have appreciably been improved, though they still fall below the expectation of teachers. Government hope that in the years to come it may be possible for them to bring about further improvement in the emoluments of Vernacular teachers. It is a matter for satisfaction that Model Schools and Refresher Courses continue with added vigour to play their important and useful role in improving the standard of instruction and diversion.

4. There is an increase of 10 in the total number of secondary schools for boys and girls and the enrolment therein has gone up by 63,431. Extra curricular activities including games, handicrafts, hobbies, gardening, floriculture and music are rightly encouraged as valuable occupation for leisure hours, and rural uplift and other beneficent activities such as scouting, Red-Cross, co-operative and thrift societies flourish with unabated zeal. Physical training is regularly imparted and a large number of Anglo-Vernacular schools have a system of medical inspection and treatment. The number of village libraries has also gone up during the year by 134; it is hoped that larger funds will be available in future for the expansion of these very useful instruments of adult education. Another popular and useful phase of rural education is the training imparted in farming and gardening to pupils who are taught methods of cultivation by superior implements, better seeds and scientific manure. These measures which have been adopted with the sole object of improving rural conditions are most laudable. The results of the 'Grow More Food' campaign this year have also been very encouraging—the amount of money brought by it has trebled in 5 years.

5. The number of Arts colleges for men and women has gone up by 6 to 58 but there has been no change in the number of professional colleges. The total enrolment in colleges for men and women, Arts as well as professional, has also gone up by 4,729 to 31,784. The expenditure on Collegiate education has increased by Rs. 10,23,048 to Rs. 72,55,273. The University has also shown marked progress in the total number of candidates appearing in the various examinations which has risen from 82,039 in 1945 to 94,341 in 1946. The grades of the teaching staff of the University and of their employees on the administration side have been improved. These measures give cause for general satisfaction. The office of the Vice-Chancellor continued to be held by the Hon'ble Lt.-Col. Khan Bahadur Dr. Sir Muhammad Abdur Rahman, Kt., LL. D.

6. Very satisfactory advance has been made in Girls' education. The number of educational institutions for girls of all grades has increased by 276 to 5,319 and the total number of scholars by 29,997 to 322,558 an increase of 10 per cent in one year which is gratifying. The aim of the Government is to provide each Tehsil headquarters and mandi town with a high or middle school and every village or group of small villages with a primary school. The increase in direct expenditure on education for girls amounts to Rs. 9,35,628 out of which the Government share comes to Rs. 6,65,047. The inspectorate for girls' schools has also expanded with the result that there are now five divisional inspectresses of schools as in the case of boys, and a District Inspectress of schools for each district in the province. The teaching staff in girls' schools has also been strengthened by the appointment of more teachers. Lastly, the Government has accorded their sanction to the revision of the scales of salaries of all grades for women teachers and to place the Subordinate Educational Service on a time-scale with a better start in pay and increased maximum. Besides, 7 posts in the Subordinate Educational Service (Class III) grade have been converted into Subordinate Educational Service (Class II). These measures are bound to raise the general standard of efficiency of teachers in girls' institutions.

7. There has been a very welcome increase of 34,735 in the number of Muslim boys reading in all kinds of recognized and unrecognized institutions. Equally gratifying has been the increase of 4,597 in the number of scheduled class pupils, boys and girls. This is evidently due to the greater encouragement and attention given to the educationally and economically backward classes by the educational authorities.

8. The direction of the Department was in the charge of Sir William Armstrong until 1st March 1946 when he proceeded on leave preparatory to retirement and Mr. G. C. Chatterji, M.A., I.E.S., Principal, Central Training College, Lahore, took his place. The notable all round progress and improvements made are due to the untiring zeal, great ability and broadminded direction of Sir William and Government have great pleasure in placing on record their appreciation of the exce llent work done by him.

9. Both the Directors have received the fullest co-operation and unfailing help of the officers under them and all have laboured hard and fruitfully in the cause of educational advancement in the province. The Punjab Government would wish to place on record its thanks to all for a year's work of great value and usefulness.

Ordered that the above remarks be printed and circulated with the report; also that they be published in the *Punjab Government Gazette* and forwarded to the Director of Public Instruction Punjab, for information, and submission to the Government of India in the Department of Health, Education and Lands together with copies of the report.

G. C. CHATTERJI

Secretary to Government, West Punjab
Education Department

V. N. S. OTTO
P. A.
for Director of Agriculture, West Punjab.

Note on the condition and prospects of crops, etc., in each district of the West Punjab for the month of September 1947

1. **Lahore district**—Good rain was received throughout the district which benefitted the standing crops. Condition of standing crops is average on both the irrigated and unirrigated lands. Yield is expected to be normal. Condition of cattle is generally good. Public health is generally good, except for some complaints of cholera in some places of the district. All the canals except Lower Bari Doab remained flowing.

2. **Sialkot district**—The rainfall during the month proved very useful to the standing crops and especially for the sowing of Rabi crops. The condition of standing crops is good both on irrigated and unirrigated areas. Condition of cattle is generally good, but there is a complaint of rinderpest and hæmorrhagic-septicæmia in certain villages of the district.

3. **Gujranwala district**—The rainfall was below average in all the tahsils of the district. It, however, proved beneficial to the standing crops. Condition of cattle is generally satisfactory. General state of public health is satisfactory. Canals are working.

4. **Sheikhupura district**—Rain fell from ·07 inches to 1·76 inches throughout the district. Flood caused heavy damage to the standing crops near the river Ravi. Public health and condition of cattle are generally good.

5. **Gujrat district**—Sufficient rain fell over the district and it proved very useful for the standing crops. Condition of standing crops is good. The expected yield is normal. Condition of cattle is satisfactory. Public health is good. Canals remained flowing.

6. **Shahpur district**—Rain fell from 0·06" to 0·96" in the various parts of the district and it benefitted the standing crops. The condition of the standing crops is from average to good on the irrigated areas and from below average to average on the unirrigated areas. Cattle are in good and healthy condition. Public health is satisfactory. Panic is prevailing amongst the masses on account of communal disturbances. This has effected the agriculture and market to a considerable extent.

7. **Jhelum district**—Rainfall 1·64", 3·81" and 2·17" in the Pind Dadan Khan, Jhelum and Chakwal tahsils respectively. The condition of standing crops is good on irrigated while below average to average on unirrigated areas. The yield is expected to be good. General condition of the cattle is fair. The state of public health is generally fair. Prices are stationary.

8. **Rawalpindi district**—The rainfall during the month was above average except Rawalpindi tahsil where it was below average. Condition of standing crops is average. The yield is expected to be normal. Condition of cattle is fair throughout the district. Public health is generally fair on the whole. Prices are the same as reported previously.

9. **Attock district**—The rainfall during the month was above normal in some parts of the district. The condition of standing crops is average to good and average on irrigated and unirrigated areas respectively. The condition of cattle is satisfactory. The state of public health is satisfactory except for some complaints of cholera in one village of Fatehjang tahsil.

10. **Mianwali district**—There was sufficient rainfall in the district. Condition of standing crops is average on the irrigated and below average on the unirrigated areas The condition of cattle is poor on account of shortage of fodder. Canals are running. More rain is still needed.

11. **Montgomery district**—

12. **Lyallpur district**—Rainfall during the month proved beneficial to the standing crops. The condition of standing crops is on the whole normal. Pressing of sugarcane has commenced. The condition of cattle is satisfactory. Canals are flowing.

13. **Jhang district**—It rained 1·45" in Jhang tahsil which benefitted the standing crops. Condition of standing crops is average. Public health and condition of cattle are generally good.

14. **Multan district**—Rain fell in some parts of the district which proved useful. Harvesting of vegetables continued. There is a complaint of foot-and-mouth and rinderpest diseases among the cattle in some parts of the district. The general state of public health is satisfactory. Canals are flowing.

15. **Muzaffargarh district**—Rainfall during the month benefitted the standing crops. Condition of standing crops is average on both kinds of soil. Condition of cattle is average. Public health is fair. Canals are flowing with sufficient supply of water. Prices are stationary.

16. **Dera Ghazi Khan district**—Rainfall during the month proved very useful for the standing crops. Condition and expected yield of crops is average on the whole. There is a complaint of Gal-Ghotu among cattle in Dera Ghazi Khan tahsil. Condition of public health is satisfactory. Canals are flowing. Prices remained high.

GHULAM MOHAMMAD

*Under enquiry.

Quotations have not been shown in cases in which there have been no wholesale transactions.

§Prices not reported.

NOTES—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

NOTE—The grade of salt for which quotations are given in this statement is Rock or Sendha, except Palwal, where it is Sambhar.

FICE OF DIRECTOR OF LAND RECORDS, WEST PUNJAB
Lahore, dated 17th November 1947

GHULAM MOHAMMAD
HEAD ASSISTANT OF STATISTICS,

*Under enquiry.

REMARKS

Except for light showers in parts of Dera Ghazi Khan district the weather remained dry. Condition and expected yield of standing crops (sugarcane, cotton, millets, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops is in progress. Picking of cotton, pressing of sugarcane and harvesting of other kharif crops continue. Fodder is sufficient except in Mianwali and parts of Lahore, Shahpur and Rawalpindi districts. Drinking water is sufficient except in parts of Mianwali and Dera Ghazi Khan districts. Condition of cattles is generally satisfactory. Retail prices (per maund) are as follows :—

	Wheat Present	Wheat Corresponding period of last year	Gram Present	Gram Corresponding period of last year	Barley Present	Barley Corresponding period of last year

REMARKS

Weather remained dry except in parts of Multan and Dera Ghazi Khan districts where rain varying in amount from 0·04" to 0·11" was received. Condition and expected yield of standing crops (sugarcane, cotton, millets, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops continues. Picking of cotton, pressing of sugarcane and harvesting of other kharif crops continue. Fodder is sufficient except in Lahore and Mianwali and parts of Shahpur district. Drinking water is sufficient except in parts of Mianwali and Dera Ghazi Khan districts. Supplies of canal water are sufficient except in areas served by Shahpur, Rangpur, Mailsi and some of the Indus inundation canals. Condition of cattle is generally satisfactory.

Retail prices (per maund) are as follows :—

(a) Report not received

NOTE—The prices published in this report are subject to verification and when they disagree with the fortnightly retail prices the latter should always be assumed to be correct.

MUHAMMAD RAFI
Director of Land Records, West Punjab

Notes on the condition and prospects of crops, etc., in each district of the West Punjab for the month of October 1947

1. **Lahore district**—Slight rain fell in Lahore Tahsil which benefitted the standing crops. Condition of standing crops on irrigated and unirrigated area is below average and poor respectively on account of closure of Lower Bari Doab Canal. Condition of cattle is generally good, except in village Sanda in Kasur Tahsil where five died and six are lying sick on account of plague. Condition of public health is good Canals remained closed.

2. **Sialkot district**—Rainfall proved very useful for the sowing of Rabi crops especially in the unirrigated areas. The condition of standing crops is good on the irrigated and unirrigated areas. The produce of Bajra was some what adversally affected owing to rainfall in the last month. The condition of cattle is satisfactory except in two villages of Sialkot Tahsil where smallpox and hæmorrhagic-septicæmia broke out. The public health is good. The canal irrigated areas are sufficiently watered.

3. **Gujranwala district**—Rainfall was below average in all the tahsils of district. Condition of standing crops is generally good. The yield is expected to be normal. Condition of the cattle is generally satisfactory. Canals are working.

4. **Sheikhupura district**—STATEMENT NOT RECEIVED

5. **Gujrat district**—There was a little rainfall during the month. The condition of standing crops is normal. Yield of the crops is expected to be average. Condition of cattle is satisfactory. Condition of public health is good. Canals remained flowing throughout the month. The prices are stationary.

6. **Shahpur district**—No rain fell during the month. The condition of standing crops is average to good on irrigated and below average to average on unirrigated areas. Gondition of cattle is good and healthy. Public health is satisfactory on the whole. Lower Jhelum Canal remained flowing during the period under report. Panic is prevailing amongst the masses on account of the communal disturbances. This has affected the agriculture and market to a considerable extent.

7. **Jhelum district**—Rain fell ·27 inches and ·23 inches in the Jhelum and Chakwal tahsils respectively. Sowings continued. The general condition of cattle is fair. The state of public health is generally fair. The prices are generally stationary.

8. **Rawalpindi district**—The rainfall during the month is below average except Rawalpindi tahsil where it is above average. The condition of crops is average. The yield is expected to be normal. The condition of cattle is fair throughout the district. The state of public health is generally fair.

9. **Attock district**—Rainfall was above normal in some parts of the district and it proved very useful for the sowing of rabi crops. The condition of standing crops is good and average to good on irrigated and unirrigated areas respectively. The condition of the cattle is satisfactory on the whole. The state of public health is generally satisfactory.

10. **Mianwali district**—Slight rain fell during the month which proved beneficial to the standing crops. The condition of standing crops is average on irrigated and poor on unirrigated areas. The yield is expected to be normal in irrigated and below normal in the unirrigated tracts. The condition of cattle is poor on account of acute shortage of fodder. Public health is satisfactory. The rain is still needed for sowing wheat crop.

11. **Montgomery district**—No rain fell during the month under report. The condition of standing crops is normal and similar outturns are expected. Condition of cattle is good. Public health is satisfactory. Canals remained running by Warabandi System regularly.

12. **Lyallpur district**—No rain fell during the month. The condition of standing crops is normal. The harvesting of Desi cotton and pressing of sugar cane has commenced and the outturn in each case is expected to be average. The condition of cattle is generally good. Public health is satisfactory. Canals are working satisfactorily by rotation.

13. **Jhang district**—No rain fell in the district. Condition of standing crops is average on the whole. Condition of public health and cattle is satisfactory. Canals are working as usual.

14. **Multan district**—No rain fell during the month. Sowing of vegetables and wheat continued. Condition of cattle is generally satisfactory. Public health remained satisfactory. All the canals are flowing.

15. **Muzaffargarh district**—There was no rainfall during the month. Condition of standing crops is average. Bajra and Jowar was harvested with normal out turn. Condition of cattle is satisfactory Public health is fair. The canals of the Chenab Series are closed, but those of the Sindh are running with in sufficient supply of water. Prices are stationary.

16. **Dera Ghazi Khan district**—Rainfall ·25″, ·04″ and ·8″ at Sanghar, Jampur and Rajanpur respectively. No rain fell at Dera Ghazi Khan and Fort Munro. Condition and expected yield of crops is on the whole average. Sowing of Rabi crops continued. Condition of cattle is satisfactory. Public health is generally good. All canals ceased to flow in the second fortnight of the month. Prices remained high. Due to disturbances and evacuation of the non-Muslims to the East Punjab the cultivators are feeling the difficulty of procuring seeds. The sowing of Rabi crops especially of wheat, gram is being delayed.

The West Punjab Gazette

PUBLISHED BY AUTHORITY

No. 17

LAHORE, FRIDAY, DECEMBER 12, 1947

Weather and Crop Report for the week ending 8 a m., Monday, the 1st December 1947

This report deals with Lahore, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan districts only.

No abnormal conditions are reported from other districts.

No.	Reporting Station	Rain	1. Supply of fodder 2. Water supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
				Rs. A. P.		
1	Lahore ..	Nil	1. Insufficient .. 2. (a) Sufficient .. (b) The canals except Upper Bari Doab remained flowing by rotation. 3. Average.	Wheat .. 11 13 8 Gram .. 8 14 3 Barley .. 7 8 6	Condition and expected yield of standing crops is average on irrigated and below average on unirrigated areas. Picking of cotton, pressing of sugarcane and harvesting of maize continue.	Sowings continue. Germination is good on irrigated and average on unirrigated areas.
2	Sialkot ..	Nil	1. Ample .. 2. (a) Sufficient. (b) The Upper Chenab Canal remained closed. 3. Average.	Rice .. 15 0 0 Wheat .. 10 4 0 Gram .. 8 8 0 Maize .. 7 2 0 Gur .. 20 0 0	Condition and expected yield of standing crops is good. Picking of cotton and pressing of sugarcane continue.	
3	Shahpur ..	Nil	1. Insufficient in Shahpur and Khushab tahsils but sufficient elsewhere. 2. (a) Sufficient. (b) Lower Jhelum Canal remained flowing. 3. Generally good.	Wheat .. 9 6 7 Barley .. 6 10 8 Gram .. 7 4 4 Bajra .. 7 4 4 Maize .. 7 9 11 Cotton .. 20 0 0 (Desi) Cotton .. 17 12 7 (American).	Condition and expected yield of standing crops is average to good on irrigated and below average to average on unirrigated areas.	
4	Rawalpindi	Nil	1. Sufficient in Rawalpindi Tahsil and insufficient elsewhere. 2. (a) Sufficient. 3. Fair.	Wheat .. 12 1 2 Barley .. 7 9 11 Gram .. 9 6 7 Bajra .. 8 0 0 Maize .. 8 14 3 Jowar .. 7 9 11	Condition and expected yield of standing crops is average.	
5	Mianwali	Nil ..	1. There is acute shortage of fodder in the district, especially in the Thal Tract. 2. (a) Sufficient except in the Thal Tract. (b) The Namal Dam has not commenced functioning. Certain areas in the vicinity of Wan Bhachran village are receiving irrigation from Khizar Branch. 3. Poor due to scarcity of fodder.	Wheat .. 12 4 11 Gram .. *10 0 0 Bajra .. 7 9 11 Jowar .. 6 15 4 Barley .. *8 0 0	Condition and expected yield of standing crops is average on irrigated and poor on unirrigated areas.	
6	Lyallpur ..	Nil ..	1. Sufficient. .. 2. (a) Do. (b) Canals have been working satisfactorily. 3. Good.	Wheat .. 9 8 0 Gram .. 8 4 0	Condition and expected yield of standing crops is generally normal. Picking of cotton and pressing of sugarcane continue.	Sowing of wheat continues.

Price: Re. 0-2-0

No.	Reporting Station	Rain	1. Supply of fodder. 2. Water supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
7	Multan ..	Nil ..	1. Sufficient .. 2. (a) Do. (b) The perennial canals from Sutlej and Chenab are flowing by rotation and those of Lower Bari Doab are flowing regularly. The non-perennial canals are dry. 3. Generally satisfactory.	Rs. A. P. Wheat .. 11 6 10 Barley .. 7 0 6 Jowar .. 7 0 6 Bajra .. 7 8 6 Maize .. 7 14 5 Gram .. 8 10 6	Condition and expected yield of standing crops is normal. Picking of cotton, pressing of sugarcane and harvesting of bajra continue.	Sowing of rabi crops continues.
8	D. G. Khan	Nil ..	1. Average .. 2. (a) Insufficient in Pachahd Circle of Sangar Tahsil, but sufficient elsewhere. (b) The canals except Dhundi Sahiban and Massuwah remained closed. 3. Good.	Wheat .. 10 7 10 Gram .. 8 1 7	Condition and expected yield of standing crops is average.	Sowings continue.

*Under enquiry.

REMARKS

Weather remained dry. Condition and expected yield of standing crops (sugarcane, cotton, millets, fodder, etc.) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops continues. Picking of cotton, pressing of sugarcane and harvesting of other kharif crops continue. Fodder is sufficient except in Mianwali, Lahore and parts of Shahpur and Rawalpindi districts. Drinking water is sufficient except in parts of Mianwali and Dera Ghazi Khan districts. Condition of cattle is generally satisfactory. Retail prices (per maund) are as follows :—

	Wheat		Gram		Barley	
	Present	*Corresponding period of last year*	*Present*	*Corresponding period of last year*	*Present*	*Corresponding period of last year*
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Lahore	11 13 8	11 4 0	8 14 3	8 14 0	7 8 6	7 8 6
Rawalpindi	12 1 2	11 6 10	9 6 7	9 6 7	7 9 11	7 1 9

PUBLISHED BY AUTHORITY

No. 17 LAHORE, FRIDAY, DECEMBER 19, 1947

Weather and Crop Report for the week ending 8 a.m., Monday, the 8th December 1947

This report deals with Lahore, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan districts only.

No abnormal conditions are reported from other districts.

No.	Reporting Station	Rain	1. Supply of fodder 2. Water supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
				Rs. a. p.		
1	Lahore ..	Nil	1. Insufficient .. 2. (a) Sufficient .. (b) The canals except Upper Bari Doab remained flowing by rotation. 3. Average.	Wheat .. 11 13 8 Gram .. 8 14 3 Barley .. 7 8 6	Picking of cotton, pressing of sugarcane and harvesting of maize continues. Yield is average on irrigated and below average on unirrigated areas.	Condition of standing crops is good on irrigated and average on unirrigated areas. Sowing of wheat, gram, sarshaf and fodder continues.
2	Sialkot ..	Nil	1. Ample .. 2. (a) Sufficient. (b) The Upper Chenab Canal is flowing. 3. Satisfactory.	Rice .. 15 0 0 Wheat .. 10 4 0 Gram .. 8 8 0 Maize .. 7 2 0 Gur .. 20 0 0	Picking of cotton and pressing of sugarcane continue. Yield is good on irrigated and average on unirrigated areas.	Condition of standing crops is good on irrigated and average on unirrigated areas. Scarcity of rain is being felt in the barani area of the district.
3	Shahpur ..	0·32 at Sadr .. 0·64 at Bhalwal 0·34 at Sahiwal	1. Insufficient in Shahpur and Khushab tahsils but sufficient elsewhere. 2. (a) Sufficient. (b) Lower Jhelum Canal remained flowing. 3. Generally good.	Wheat .. 9 6 7 Barley .. 7 4 4 Gram .. 7 9 11 Bajra .. 7 4 4 Maize .. 7 9 11 Cotton .. 16 0 0 (Desi) Cotton .. 20 0 0 (American).	..	Rain proved beneficial to standing crops and the condition is average to good on irrigated and below average to average on unirrigated areas.
4	Rawalpindi	0·15 at Sadr .. 0·29 at Gujar Khan. No rain fell at other stations.	1. Sufficient in Rawalpindi and insufficient elsewhere. 2. (a) Sufficient. 3. Fair.	Wheat .. 12 1 2 Barley .. 7 9 11 Gram .. 9 6 7 Bajra .. 8 0 0 Maize .. 8 14 3 Jowar .. 7 9 11	..	Condition of standing crops is verage.
5	Mianwali	9·06 at Sadr .. No rain fell at other stations.	1. There is acute shortage of fodder especially in the Thal Tract. 2. (a) Sufficient except in the Thal Tract. (b) The Namal Dam has not yet started irrigation Certain areas in the neighbourhood of Wan Bhachran village are receiving irrigation from Khizar Branch. 3. Poor due to shortage of fodder.	Wheat .. 12 4 11 Gram .. 10 0 0 Barley .. 8 0 0 Jowar .. 6 15 4 Bajra .. 7 9 11	.. ..	Condition of standing crops is average on irrigated but poor on unirrigated areas.
6	Lyallpur ..	0·06 at Sadr .. No rain fell at other stations.	1. Sufficient .. 2. (a) Do. (b) Canals have been working satisfactorily. 3. Good.	Wheat .. 9 8 0 Gram .. 8 4 0	Picking of cotton and pressing of sugarcane continues. Yield is normal.	Condition of standing crops is average. Sowing of wheat continues.

Price: Re. 0-2-0

No.	Reporting Station	Rain	1. Supply of fodder. 2. Water supply for— (a) Drinking (b) Canal irrigation 3. Condition of cattle	Retail prices in rupees per maund	Prospects of Kharif	Prospects of Rabi
				Rs. A. P.		
7	Multan ..	0·07 at Sadr .. No rain fell at other stations.	1. Sufficient .. 2. (a) Do. (b) The perennial canals from Sutlej and Chenab are flowing by rotation but those of Lower Bari Doab are flowing regularly. The non-perennial canals are dry. 3. Generally satisfactory.	Wheat .. 11 6 10 Barley .. 7 0 6 Jowar .. 7 0 6 Bajra .. 7 8 6 Maize .. 7 14 5 Gram .. 8 10 6	Picking of cotton, pressing of sugarcane and harvesting of bajra continue. Yield is normal.	Condition of standing crops is normal. Sowing of rabi crops continues.
8	D. G. Khan	0·95 at Sadr .. No rain fell at other stations.	1. Average .. 2. (a) Insufficient in Pachahd Circle of Sanghar tahsil, but sufficient elsewhere. (b) The canals except Sahiban, Nur Dhundi and Massuwah remained closed. 3. Fair.	Wheat .. 10 7 10 Gram .. 8 1 7	..	Condition of standing crops is average. Sowings continue.

REMARKS

Rainfall varying in amount from 0·03″ to 0·95″ was received in parts of all the reporting districts except Lahore and Sialkot. Scarcity of rain is being felt in the barani areas of Sialkot district. Condition of standing crops (sugarcane, cotton, wheat, barley, gram and oilseeds) are generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops continues. Picking of cotton, pressing of sugarcane and harvesting of other kharif crops are in progress. Probable yield is generally average to good on irrigated and below average to average on unirrigated areas. Fodder is sufficient except in Mianwali, Lahore and parts of Shahpur and Rawalpindi districts. Drinking water is insufficient except in parts of Mianwali and Dera Ghazi Khan districts. Condition of cattle is generally satisfactory. Retail prices (per maund) are as follows :—

	Wheat Present	Wheat Corresponding period of last year	Gram Present	Gram Corresponding period of last year	Barley Present	Barley Corresponding period of last year
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

NOTE—The prices published in this report are subject to verification and when they disagree with the fortnightly retail prices the latter should always be assumed to be correct.

FA TEH ULLAH KHAN
Director of Land Records, West Punjab

1553 CS—11—16-12-47—SGPWP Lahore

SUMMARY OF THE METEOROLOGICAL CONDITIONS OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE IN MAY 1947

Four western disturbances affected the provinces during the month.

A low pressure area formed over the south-west Punjab on the 1st gave local to widespread showers in the N.-W. F. P. and the Punjab hills on the 2nd and 3rd. There were also local duststorms and dust-raising winds in the plains of the Punjab from the 2nd to the 4th. A fresh western disturbance gave local showers along and near the Punjab hills on 5th and 6th.

The second western disturbance gave local showers in the N.-W. F. P. on 11th. The third was feeble and caused local showers in the N.-W. F. P. on the 19th.

The fourth western disturbance passed across the extreme north of the country and was responsible for local duststorms and dust-raising winds in the N.-W. F. P. and the Punjab on the 27th and 28th.

The total rainfall was in slight excess at Drosh, in slight defect at Ludhiana, Simla and Murree, in moderate defect at Parachinar and in large defect elsewhere.

The cloud amounts were in excess at Montgomery, Murree, Multan, Bannu and Miranshah and normal or in defect elsewhere.

Humidity was in excess at Lahore and Khanpur and normal or in defect elsewhere.

Both the maximum and minimum temperatures were either normal or in excess.

May 1947

*Under enquiry.

REMARKS

Weather remained dry except in parts of Rawalpindi and Mianwali districts where rain varying in amount from 0·08" to 1·27" was received. Scarcity of rain is being felt in the barani areas of Sialkot district. Condition of standing crops (sugarcane, cotton, wheat, barley, gram and oilseeds) is generally average to good on irrigated and below average to average on unirrigated areas. Sowing of rabi crops continues. Picking of cotton, pressing of sugarcane and harvesting of other kharif crops are in progress. Probable yield is generally average to good on irrigated and below average to average on unirrigated areas. Fodder is sufficient except in Lahore, Mianwali and parts of Shahpur and Rawalpindi districts. Drinking water is sufficient except in parts of Mianwali and Dera Ghazi Khan districts. Condition of cattle is generally satisfactory. Retail prices (per maund) are as follows :—
